**Item No. 18 : Extension of lien in respect of Dr. Anupam Hazra**

**EC:101:04-15:18:** Dr Anupam Hazra, Asstt Professor, Dept of Social Work was sanctioned lien for one year w.e.f. 5/12/2013 to 4/12/2014. Later on he has applied for extension of lien for another year w.e.f. 5/12/2014 to 5/12/2015. A letter was written to The Registrar, Visva Bharati to intimate the status of confirmation of service of Dr Hazra at Visva Bharati. The authority of Visva Bharati has intimated that he has been granted Extra Ordinary Leave for one year w.e.f. 2/6/2014 to 1/6/2015. They have also intimated that his service has not yet been confirmed at that University.

The EC, in its 100<sup>th</sup> meeting held on 3/1/2015, has approved for post facto extension of lien upto the date of his confirmation at the Visva Bharati. The decision of the EC requires to be reviewed in the light of provision of rule.

As per Regulation regarding grant of lien, "the term of lien shall be of two years duration. However, in case the probation period in the University where the employee intends to join is one year the lien shall normally be allowed for one year only. However, if the period of lien is required to be extended, the employee concerned should inform the Assam University well in advance so that lien can be extended beyond one year."

As per provision of rule contained in the UGC Regulation "the minimum period of probation shall be one year extendable by a maximum one year in case of unsatisfactory performance." It may be noted that the authority of Visva Bharati has granted EOL (without pay & allowances) within the period of lien granted by this University. But they have not specifically mentioned the reason of non confirmation of his service. As per UGC Regulation the confirmation at the end of one year shall be automatic, unless extended for another year by a specific order, before expiry of the first year. Since the period of EOL on personal

ground cannot be counted for qualifying service for pension the service of Dr Hazra will be on question.

In the light of above provision of rules, Dr Hazra may be intimated about the UGC's Guidelines on probation and AU Regulation on lien so as to take up the matter with his present employer for confirmation of his service at Visva Bharati.

The matter has been discussed in detail and resolved to extend the lien period of Dr. Anupam Hazra for one more year w.e.f. 5/12/2014 to 4/12/2015.

#### **EC:101:04-15:24.18 : Reporting on the status of CIL**

The Chairman presented the following report:

#### **Report on Central Instrumentation Laboratory at Assam University**

(Based on the inputs received from the Faculty members of CIL, In-Charge and high power committee)

The CIL officially came into existence on 25.05.2009 with UGC granting fund and position during the XIth Plan period. The only instrument purchased with the grant of CIL is the NMR.

The CIL hosts other facilities that were either shifted from other Departments or purchased from other funding sources later. The first group includes HPLC, AAS, GCMS and FT-IR Spectrometer and perhaps Impedance Analyzer (in this case date of installation is not available). The second group includes a Liquid nitrogen plant, installed in 2011.

#### **The in-charges of CIL were:**

Prof. S.B. Paul (2009-12)  
Prof. NVS Rao (2012-13)  
Prof. A. Gupta (2013-)

#### **Staff of CIL:**

Dr. S.S. Nath Associate professor  
Dr. S. Chowdhury Assistant Professor  
Dr. S. Gope STA

**Usage of the instruments since inception of CIL** (compiled from log book and written intimation)

**HPLC:** 21.07.2009 □ 10.09.2014 (~5 years)

**AAS:** 15.9.2010 □ 10.05.2011 (~9 months)

**GCMS:** 19.07.2011 □ 21.8.2011 (~1 month) (The instrument was shifted to CIL in 2011)

**Liquid nitrogen plant:** NEVER OPERATIONAL since installation in 2011

**FTIR:** No record as there was no user after shifting to CIL

**Impedance Analyzer:** No record as there was no user since installation (date not available)

**NMR** (installed in 2011, date not available)

*Handwritten signature and date: 11/04/15*

First phase: 08.01.2011 □ 11.11.2011 (~11 months)  
Second phase: 27.04.2013 □ 01.06.2013 (~1 month)

**User statistics:** (Compiled from written intimation)

HPLC: 25 users over ~5 years, 5 per year

NMR: 0.34 per day, 85 users in the first phase in 2011 over ~11 months

30 users in the second phase in 2013 over ~1 month

AAS: 7 users in 9 months, ~1.3 per month

GCMS: 2 users in 1 month

FTIR: 0

Impedance Analyzer: 0

Liquid nitrogen plant: **Never worked**

**Present status:**

- Faculty members/In-Charges reported status to the Administration 3-4 times over the last two years.
- After spending significant amount of money NMR was made re-operational in 2013, but it again went out of order.
- Faculty members / In charges voiced concern that all the instruments, other than NMR, are of outdated specification and beyond repair (will not be of use even made working).
- Faculty members raised concern about low usage of all the instruments (even when these worked), which is alarming.
- A high power committee was constituted in December 2014 to propose a roadmap of revamping of CIL.
- In its report, the committee recommended to assess the exact financial requirement to make at least the NMR operational, and to install another Liquid nitrogen plant.
- **Only two papers have been published using data from the NMR. This is surprising given that 115 researchers used the instrument.**

Following threadbare discussion on the report, the EC took the following resolutions:

- A committee comprising of Prof. A. Gupta (Chair), Dr. S.S. Nath and Dr. S. Chowdhury (they may co-opt any other internal or external member) is to submit a report within 30 April, 2015 mentioning the exact financial requirement to make the NMR operational (including accessories). The committee may seek opinion from the Company.
- The report will be placed in the next EC and UGC will be approached for financial support
- EC notes with concern the dismal record of usage statistics and authentic proof of proper utilization of the instruments (when these were operational) in terms of publications. The committee should look into the reasons behind low usage of the instrument, and particularly the very low utilization of the data obtained from NMR. This is vital because proposal for additional financial requirement must be justified.
- After submitting the report about NMR, the committee is to evaluate the other instruments, which were not originally part of CIL and, based on the report, EC will decide about the future step. If necessary, disposal process can be initiated.
- Prof. Devasish Kar and Prof. B.S. Purkayastha will explore the possibility of transfer/ attachment of the faculty members and staff to other Departments and submit a report in the next EC.
