

## GIAN programme on “Functional Genomics for Plant Abiotic Stress Tolerance”

GIAN programme on ‘Functional Genomics for Plant Abiotic Stress Tolerance’ was organized by Prof. Sanjib Kumar Panda (course coordinator), Department of Life Science and Bioinformatics, Assam University, Silchar from 26-30 July, 2016. Professor Petra Bauer (foreign coordinator), from Heinrich Heine University, Dusseldorf, Germany acted as the Foreign expert and talked on various aspects of functional Genomics for Plant Abiotic Stress Tolerance. Participants from all over India actively interacted during the five days course. The advanced GIAN course certainly installed an academic mark in the minds of students and researchers.
