1. Background of Skill Development Programme

Countries that have had the most rapid increases in educational attainment, as well as sustained economic growth, have upgraded education sequentially. In a globalized economy, a large pool of skilled workers is indispensable for attracting foreign direct investment. Developing skilled workers enhances the efficiency and flexibility of the labour market; skills bottlenecks are reduced, skilled workers are more easily absorbed into the economy, and their job mobility is improved. It is crucial to invest in quality secondary and tertiary education and in vocational education and training (VET) if India's economy is to develop and remain competitive in world markets.

The UGC had launched a scheme on 27 February, 2014 for skill development based higher education as part of college/university education, leading to Bachelor of Vocation (B. Voc.) degree. Considering the implementation modalities, the guidelines of the scheme have been revised in the year 2015. The B. Voc. programme is focused on universities and colleges providing undergraduate studies which would also incorporate specific job roles and their National Occupational Standards (NOS) along with broad based

general education. This would enable the graduates completing B. Voc to make a meaningful participation in accelerating India's economy by gaining appropriate employment, becoming entrepreneurs and creating appropriate knowledge.

2. About B. Voc. Programme

Bachelor of Vocation (B. Voc.) Programme started in the Assam University, Silchar in December, 2015 in (i) Food Processing, and (ii) Farm Machinery and Power Technology disciplines. It was initially sponsored by UGC, and continues as self-financing system from the academic session 2019-2020 onwards.

B. Voc. Programme is a skill development based full time 3 year (6 semesters) degree course with work-ready skill levels under National Skill Qualification Framework (NSQF) such as,

(i) Certificate (at the end of 1st semester, NSQF level 4)

(ii) Diploma (at the end of 2nd semester, NSQF level 5)

(iii) Advanced Diploma (at the end of 4th semester, NSQF level 6)

(iv) B. Voc. Degree (at the end of 6th semester, NSQF level 7)

B.Voc. Degree is recognized at par with the other Bachelor level degrees for competitive exams conducted by Union/State Public Service Commission, Staff Selection Commission or other such bodies where the eligibility criteria is "Bachelor Degree in any discipline". Further, students with B.Voc. degrees are eligible for the trans-disciplinary vertical mobility into such courses where entry qualification is a Bachelor Degree without specific requirement in a particular discipline.

3. Course Curriculum

The course curriculum of the B. Voc. Programme has been developed in line with the model curriculum recommended by the Sector Skill Councils for various Qualifications Packs, with a judicious mix of hands on practice, theoretical aspects, field and industry visits, National Occupational Standards, personality development, training and internships.
