ASSAM UNIVERSITY: AN INTRODUCTION

Assam University, Silchar, is a Central University established by an Act of the Indian Parliament (Act XXIII of 1989), and came into existence in 1994. Situated in the Barak Valley of southern Assam, the University is nestled in a sprawling 600-acre campus at Dargakona, about 23 kms. from Silchar town. In 2007, Assam University opened a satellite campus at Diphu in the Karbi Anglong Hills District of Assam, thereby making quality higher education accessible to a wider section of society. With students' strength about 3426 in the Silchar campus and 465 in Diphu campus, the University is a veritable melting pot of diverse communities, ideas and creativity. Apart from the two campuses of the University, there are 59 affiliated and permitted colleges in the five districts of south Assam, which together constitute the jurisdiction of Assam University and there are more than 25,587 students enrolled in the affiliated colleges.

Since 1994, Assam University has expanded both in size and reputation. Today, there are 36 postgraduate departments under 16 Schools of study in the Silchar campus and 10 departments in Diphu campus, offering a wide range of programmes geared towards equipping students and research scholars with knowledge, skills, experience and confidence, the benefits of which they can reap well into the future. Besides, there are several Centres of Study in the University dedicated to research of high quality. Recently, the University has developed a strategy for enhancing the range of pedagogic uses of technology. As part of this strategy, the University is in the process of gradually turning all its classrooms into state-of-the-art ones enabling teachers to teach using a wide variety of media. There's no gainsaying that in the last twenty two years of its relentless pursuit of academic excellence, Assam University has made giant strides in providing better academic atmosphere and improved infrastructural facilities.

THE LOGO

The Logo has a book at the base. Knowledge in the form of flame of light is emerging from the book to lead to modern technology to ensure human development. In the background, there are hills and plains representing the Barak Valley and the hills districts. All the elements are ultimately put in a wheel of progress, so that the University acts as an instrument of change and development for the area within its jurisdiction. The promise of progress is represented by the Rising Sun which is shown as emerging across the symbol of technological growth. 'Assam University, Silchar' and 'Pratyayabodhakritirupapattaye' (in Devanagari) are inscribed in the Logo.

OUR MOTTO

The Motto of the university is "Pratyayabodhakritirupapattaye" meaning 'Conviction, Confidence and Creativity'.

OBJECTIS OF THE UNIVERSITY

The objects of the university have been laid down in the Act as follows:

- to disseminate and advance knowledge by providing instructional and research facilities in such branches of learning as it may deem fit and by the example of its corporate life to make provisions for integrated courses in Humanities, Natural and Physical Sciences and Social Sciences in the educational programmes of the University;
- to take appropriate measures for promoting inter-disciplinary studies and research in the University;
- to educate and train manpower for development of the State of Assam; and

From the Desk of the Vice Chancellor

Assam University got re-accreditation from NAAC in November 2014 with cumulative grade point of 2.92, which is a shade better than the first accreditation. This is a matter for both relief and concern. On one hand, we have been able to maintain *status quo* but, on the other hand, we were unable to reach the desired goal. This is a strong reminder that there is no scope for complaisance and the entire university fraternity must strive hard. Prior to this, we were assessed by an academic and administrative audit team comprising of eminent outside experts that helped us to carry out a realistic SWOC analysis.

The University celebrated its Foundation Day on 21st January, 2015 with lot of enthusiasm and commitment. Prof. Talat Ahmad, Hon'ble Vice Chancellor of Jamia Millia Islamia was the Chief Guest. We organized a literary meet on this occasion. The University organized its 14th Annual Convocation on 15th November, 2014 which was attended by nearly 3000 students, the largest ever assembly. Prof. Suranjan Das, Hon'ble Vice Chancellor of University of Calcutta was the Chief Guest and he delivered the Convocation Address.

The University opened two Departments during this year- Statistics in Silchar campus and Geography in Diphu campus, thereby fulfilling a long outstanding demand from the community. The University received only a few teaching posts in the XIIth Plan, which were promptly filled up. The University has filled up nearly 90% of the teaching posts, an effort

ANNUAL REPORT 2014-15

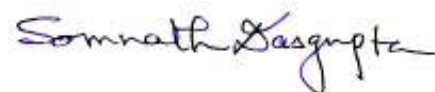

that got kudos from the UGC. The University has so far strictly followed the reservation policy of the Government. We are happy to note that almost all the outstanding promotion cases under CAS were cleared. We have not received so far allocation of new non-teaching posts under the XIIth Plan.

As a part of our office automation policy, we started with online file movement and tracking system, the software of which was developed by our Computer Centre.

As a part of our ongoing international collaboration under the EU-funded NAMASTE Project, students and faculty members visited different European Universities.

During this year, the new Government at the Centre introduced several innovative teaching, learning and research programmes and our University has participated enthusiastically in all of them. We have strengthened our collaboration with the Industry and Alumni, who are now contributing in a much more direct manner in the development of the University. We have submitted our proposals for Community College, B.Voc programme and DDU Kaushal Kendra. A good number of our Faculty members and students have participated in social outreach programmes under Community Development Centre and Unnat Bharat Abhiyan. We are preparing online courses for the MOOC programme. Internet connectivity in both our campuses has been improved. We are running successfully our network of Innovation Club and Inspired Teachers' programme. We have started preparation for switching over to CBCS system of education for our UG and PG programmes and necessary modifications of syllabi are on the way.

The Annual Report of 2014-15 is a reflection of our achievements and constraints, and to express our commitment to meet the demands of the changing National educational policy.

Research and Developmental activities

The department has been able to bring virtually every aspect of communication discipline under scanner for the purpose of research. It has been an earnest endeavour on the part of the department to unearth the opaque areas of the field of communication. The teachers in the department are alive to the problems of the applicability of academic research and are trying to break new grounds in an effort to bridge the gulf between academia and the outside world in a developing society. The department harbours the hope of developing an Indian paradigm of communication research it would be able to put the department not only on the international map but also would impart it a distinct place among the Indian universities. The department has a policy of engaging the research scholars in meaningful activities and has already been able to employ almost 30% of its research scholars as permanent employees. The department provides a healthy library facility to its research scholars.

The department has decided to use its resources for dissemination of modern scientific knowledge to rural people through the use of traditional medium of communication and is currently holding discussion with different agencies like National Rural Health Mission, Sarva Siksha Abhiyan Directorate to decide on the modalities of cooperation.

The department has actively started the practice of bringing professionals and internationally reputed personalities to provide the students with an understanding of the humdrums of outside world.
